

Thank you for trying the demo of PRIME v4.0 for Windows

This document contains important information that you may find helpful when installing and using PRIME.

1. MINIMUM SYSTEM REQUIREMENTS

- PC Capable of running Adobe After Effects
- Windows® XP Home Edition/Professional with SP2
- Adobe After Effects v5.5 or higher
- Internet Access required for Activation

2. RECOMMENDED SYSTEM

- Workstation-class PC with multiple processors
- Windows XP Professional with SP2
- Adobe After Effects v7.0

3. INSTALLATION

To install the PRIME demo, simply copy the '**PRIME (Demo)**' folder to your host application's plug-ins folder.

For Adobe After Effects, the plug-ins folder is located here:

c:\Program Files\Adobe\Adobe After Effects (version)\Support Files\Plug-ins

4. IMPORTANT NOTES

Because of the 'x' rendered over each frame, the demo version renders slower than the full version.

5. KNOWN ISSUES

There are no known issues at this time.

6. PROBLEMS INSTALLING?

Send a note to support@digitaltrove.com, and we'll have you up and running in no time.
